

TESTIMONIAL :-

Philippa was my tutor during my recent NEBOSH Environmental Management course & has an excellent knowledge of her subject.

Her style was very refreshing & enlightening & she managed to make a sometimes very complicated subject, very interesting.

Her ability to interact & relate to each student was brilliant & she managed to break each element down into bite sized pieces so that it was much easier to understand.

An excellent tutor & I will definitely be using her services in the future with regards to Environmental Issues.

Well done Philippa & thank you for a very enjoyable & enlightening week.

Keith Hopkinson.
