Dear Sir,

Philippa Stanley has carried out training for our organisation for several years, she has always maintained the highest standards during this period which is reflected both in the results obtained from her courses such as the NEBOSH Certificate in Environmental Management, and the positive feedback obtained from our clients. She is very personable and easy to get along with which in turn makes her easily approachable from a trainee's perspective which is conducive to the high pass rates she obtains. I would highly recommend Philippa as a trainer as I am confident she would prove an asset to your organisation and provide high value returns for your investment.

Yours sincerely,

Mike Moss

Managing Director.
