## Corporate Social Responsibility Policy P Stanley Associates Ltd

P Stanley Associates Ltd provide Corporate Social Responsibility consultancy coaching and auditing services to organisations throughout the UK and beyond. We assist our clients to recognise the impacts of their organisation, and improve their business sustainability. By partnering with our clients we empower greater environmental and social accountability that enable our clients to realise the opportunities presented in response to their shift in paradigm. In short, we help our clients to think outside the box, for the greater good!

Founded in 2006, the company specialises in the provision of tailored integrated business management systems and environmental auditing. As part of our package, we create and deliver bespoke training courses based on learning through fun and practical solutions. In 2014 we established Equis Coaching in response to the growing requirement from our clients to enhance their growth and increasing appreciation of sustainability issues.

We are proud to support the Third Sector and to work within the guidelines laid down by both IEMA and the ICF. P Stanley Associates Ltd are committed to meeting all legislation applicable to ourselves, and helping our clients to meet their obligations. We will work within our client's policies, minimise pollution and set ourselves objectives and targets that are reviewed annually to manage and reduce our significant environmental impacts as part of our environmental management system.

This policy is reviewed annually and a copy is provided to all of our employees and associates. It is available upon request, or to download from our website.

We source and use materials from a sustainably managed source and encourage others to do likewise. Our company ethos is to produce quality and robust tailored packages whilst minimising our environmental footprint and to continually improve our environmental performance.
